DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hataoka et al (US Patent No. 4811231). This reference teaches (see Fig. 2) a main section (5), a partition (18), first section (5a), second section (5b), control valve (19) and a connection (the entrance to passage 5a) at the upstream end of second passage communicating with the first passage.

Allowable Subject Matter

2. Claims 17 and 18 are allowed.
3. Claims 2-13,15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
